

## CPR for HCP / AED (BLS)

CPR for HCP with AED is an advanced level of CPR for healthcare providers. It covers all CPR Level C material as well as additional skills. This course is tailored for those who work in the healthcare field or for students training to become healthcare professionals.

This is a 3+ hour classroom course in which you will learn to recognize life threatening situations and how to perform effective CPR with AED, for in-hospital and out-of-hospital settings. You will also learn how to contact EMS and how to perform life-saving techniques, including choking, on adults, children and infants.

### Course Content

- Scene Assessment
- Legal Implications
- Prevention of Disease Transmission
- CPR for Adults, Children, Infants (1 and 2 rescuer)
- AED Training
- Choking for all ages
- Bag Valve Mask

This CPR course meets the OHS standards and is WSIB approved.  
Annual certification required.

Cost \$65.00
